## PEONIES

We grow 42 varieties of Peonies, all of which have a rating of 8 or above. Write for our list.

**Let us grow your bulblets and planting stock on the shares or contract. Submit the varieties you wish grown and we will send you our terms.**

Our soil is ideal, being a very sandy clay, and our season is just long enough to produce bulbs of the finest quality. We have over 100 rods of tile per acre.

We advise forcing all No. 1 bulbs, but Nos. 2 and 3 are satisfactory to plant outside.
